SEA-LUTIONS for

FLUVAL 05/06/07 CANISTER FILTER MAINTENANCE CHECKLIST

This maintenance checklist can be used to perform the needed maintenance on your Fluval 05/06/07 canister filters (as recommended by the Fluval User Manuals). **The maintenance is necessary to prevent sudden failure or reduced performance.** Just print this out & tape to your filter.

The months that are clear white are when the maintenance needs to be done. Some needs to be done monthly, some semi-annually, and some yearly. Write the date of maintenance in the box when the maintenance is done.

To purchase the Fluval Media & Parts that need to be maintained, go to: MarineAndReef.com/Fluval
