

# Mini-Jet®

ADJUSTABLE FLOW MINIATURE PUMP

## Benefits & Features

Model	Gal / Hr	Head (Inches)	Power Consumption (in watts)	Dimensions (Inches)		
				W	H	D
Mini-Jet® 404	18 - 108	32	5	1.5	2.25	2.25
Mini-Jet® 606	82 - 153	46	6	1.5	2.25	2.25

- **Mini-Jet®** aquarium pumps combine exceptional pumping capacity with the smallest possible size to fit a variety of requirements, including freshwater or saltwater aquariums or reptile terrariums.
- **Mini-Jet®** pumps are available in two sizes, each with an adjustable flow rate. They can be used in reef aquariums to create water currents and are ideal for small fountains or waterfalls. They hide easily behind aquarium or terrarium decorations.
- **Mini-Jet®** aquarium pumps can be completely submerged, making them the best choice to fit into the small compartments of sumps or reservoirs. Unique cord arrangement permits vertical installation.
- Suction cup support provides more stable and silent operation.
